WORK EXPERIENCE

United States Air Force

07/2008 – Present

Supervisor: Col Walter Matthau, 757-743-34156

40 hours/week

Langley Air Force Base, Newport News, VA/delete

Salary: \$ 76,200/year

Logistics Management Specialist, Captain, 0-3

Develop, implement, present, and monitor command policy for over 2,766 materiel management specialists at 58 installations worldwide as Chief Supply Chain Program Operations for HQ Air Combat Command (ACC). Evaluate, design, re-engineer, direct and coordinate supply policy and provide guidance to USAF, combat air forces and DoD contractors/agencies. Train, supervise, and evaluate six Senior non-commissioned officers and two civilian personnel.

Analyze headquarters support and contingency operational activities relevant to multiple scenarios. Oversee development of logistics plans in support of assigned global supply chain areas to ensure projects meet time and budget requirements.

Apply broad knowledge of supply logistics, military protocol and information technology to ensure seamless integration of automated systems with existing processes and procedures. Monitor progress toward meeting logistics plan and to identified causes and impact of delays or other issues. Identify and resolve issues in the logistical life cycle that impact USAF fielding, sustainability and readiness.

SELECTED ACCOMPLISHMENTS:

Assessed logistics operations, identified deficiencies, and developed Back to Basics logistics readiness metrics. Reengineered operations compliance, utilizing benchmarks for HQ Air Force goals.

Spearheaded revision of six ACC supply Compliance and Standardization Requirement Lists (C&SRL). Codified strict Logistics Readiness Squadron policy adherence to supply chain management of controlled materiel.

Evaluated and reengineered Nuclear Weapons-Related Material Awareness Training, establishing comprehensive training standards to ensure maximum USAF-wide safety compliance.

Selected by senior military to serve on Operational Readiness Inspection team. Led team in developing ACC guidance/checklist to stop erroneous sensitive assts shipment and ensure positive inventory control.

DEPLOYMENT:

Chief, CDDOC Operation Enduring Freedom Future Plans Branch, CENTCOM Deployment and Distribution Center (DDOC), Camp Arifjan, Kuwait, 08/2009 – 02/2010

Served in multimodal joint operations distribution center, coordinating with Air, Surface, Maritime, and Requirement Branches on integrated transportation solutions. Provided analysis of distribution requirements and capabilities to synchronize the entire spectrum of global mobility capabilities. Analyzed requirements, capabilities, shortfalls, alternatives, and enhancements to the theater transportation system and recommended solutions to theater transportation issues.

Planned, coordinated, and executed largest command and control shift since center inception, integrating 26 personnel into first-ever multimodal global logistics Continuity of Operation Plan (COOP).

Identified critical training deficiency and provided instruction for five personnel on Joint Operations Planning and Execution System (JOPES), ensuring JOPES cargo and passenger validation and flow analysis products were available without interruption.

United States Air Force

01/2008 – 06/2008

Supervisor: Lt Col David Parr, 757-444-5643

40 hours/week

Davis-Monthan Air Force Base, Tucson, AZ

Salary: \$ 71,00/year

Logistics Management Specialist, Captain, 0-3

Managed all personnel, logistics, inventory control, and distribution operations for second largest Logistics Readiness Squadron in Air Combat Command. Maintained \$42M worth of vehicles, directed \$49M in fuels support, managed \$116M in both supplies/equipment, and supervised over 470 personnel through subordinate

commands. Provided aircraft spares, fuel support, equipment, deployment operations and transportation operations and maintenance. Operated Defense Fuel Support Point which provided over 22 million gallons of fuel to nine Arizona locations.

Briefed military stakeholders on logistics management progress and issues through formal presentations, written statistical reports, and oral discussion. Outlined relevance to overall mission. Proposed resolutions and remedial actions. Liaised between fuel distribution center and customers to find equitable, expedient solutions to disputes, maintaining diplomacy and professionalism.

SELECTED ACCOMPLISHMENTS:

Successfully directed the movement of 24,300 inbound aircraft parts, enabling Fighter Wing positive launch status on 5,700 sorties.

Served as project manager for \$20 million for Type III fuel system, replacing four antiquated 1953-era pump houses and eliminated environmental hazards.

Organized and monitored \$35 million reconciliation of aircraft spares, ensuring accurate classification, count, and location of all inventory items.

United States Air Force

01/2007 – 01/2008

Supervisor: Maj Wesley Snipes, 844-346-5270

40 hours/week

Kabul, Afghanistan

Salary: \$ 68,500/year

Deputy G4 advisor

Served in advisory, logistics, and management capacity regarding Supply and Fuels processes to Afghan National Army, Afghan National Police, and Afghan Border Police. Directed timely and accurate accountability and distribution of equipment to US and Afghan military and police forces. Assessed integrated procurement, storage, military facility management, shipment, technical support and training activities into a comprehensive fuel supply logistics plan.

Directed logistics, program management, planning and information management. Identified work force and organizational needs to meet fuel supply support priorities. Developed appropriate internal operating procedures based on pending changes in policy and made recommendations for improvements in the program areas of logistics, transportation modes, supply chain methodologies, and inventory control.

Established and maintained accurate inventory control system providing for secure and logical storage of all fuel while maintaining accurate and up-to-date records manually and through automated database management systems. Coordinated supply management activities to assure adequate supply posture.

SELECTED ACCOMPLISHMENTS:

Developed and implemented fuel ordering/accounting system for Afghan National Army allowing for successful distribution and tracking of 44 million liters of fuel for combat operations.

Planned and executed 400 combat logistics patrols; ensured combat resupply of critical assets to US embedded training teams/Police mentoring teams.

Directed multi-week logistics /medical assessments for 4 provincial HQs/13 police districts, to facilitate development of \$50M winter plan in outfitting Afghan National Security Forces.

Created logistics and inventory control plan and oversaw fielding of \$30M in weapons, ammunition and supplies across 10 provinces, providing combat capability while ensuring accountability to Afghan forces.

United States Air Force

06/2005 – 01/2007

Supervisor: Col Walter Pidgeon, 757-764-6587

40 hours/week

Davis-Monthan Air Force Base, AZ/ Bagram Air Base, Afghanistan

Salary: \$ 68,500/year

Vehicle Operations Flight Commander

Managed comprehensive transportation and Distinguished Visitor support for HQ 12 Air Force, 355th Wing and numerous tenet units. Provided 24-hour transportation support to over 6,000 base and transient customers. Expedited EC-130 aircrew transport sustaining theater airlift /sortie generation.

Directly responsible for the health, welfare, discipline, and morale of 57 military and 16 civilian personnel in six work centers providing operations support for a fleet of 89 general/special purpose vehicles and material handling equipment valued at more than \$3M. Managed Wing Government Motor Vehicle Licensing/Records section with over 10,000 records.

Prepared and presented briefings to senior military personnel, ensuring clear, concise communication of complex logistics information. Developed and presented detailed reviews of process efficiencies/recommends improvements to the Logistics Readiness Commander

Initiated personnel recruitment actions, interview potential civilian applicants, and recommended selections, promotions and/or reassignments. Performed personnel evaluations, recognizing accomplishments and setting development goals while addressing specific issues for continued improvement.

SELECTED ACCOMPLISHMENTS:

Provided immediate response support for airborne command post, worked 152 requirements, and ensured 100% ready aircraft for President of the United States. Coordinated strict itinerant travel for 150 Distinguished Visitors.

Trained and supervised Global War on Terrorism (GWOt) funded over-hires and augmentees. Directed vehicle operations for 2006 Operational Readiness Exercise resulting in "Excellent" rating.

Developed and implemented vehicle training validation/certification plan for 61 Airmen. Facilitated deployment training, providing combat veteran instructors to teach convoy doctrine to over 950 personnel.

Rendered rapid transportation support for E4 aircraft, supporting 152 requests over 18-month tenure. As exercise logistics lead, stored and moved vital assets; moved 697 passengers, USN P-3 aircraft for 33 Department of Defense agencies.

DEPLOYMENT:

Supply Officer, G4 Supply Division, Joint Operations Center, Combined Joint Task Force – 76, Bagram AB, Afghanistan, 10/2005-02/2006

Directed sustainment support to 13 Provincial Reconstruction Teams and 43 MILITARY bases. Oversaw off-loading, segregating, and processing of all incoming supplies and equipment, ensuring prompt processing of priority items while strict adherence to military procurement regulations.

Managed and coordinated humanitarian aid effort; distributed 200K meals to Afghans valued at \$470K in a 2-week period. As technical expert for Air Force logistics, provided 1.8M gallons of fuel and enabled 2.4K US and coalition combat sorties. Oversaw distribution of 18K Enhanced Small Arms Protective Insert body armor kits to soldiers in Afghanistan.

United States Air Force

06/2004 – 06/2005

Supervisor: Col Roger Cox, 565-333-6754

40 hours/week

Davis-Monthan Air Force Base, AZ

Salary: \$ 63,200/year

Materiel Management Flight Commander

Supervised, trained and evaluated 99 military and 5 civilian (GS-12 and 4 WG-5) personnel in seven geographically separated work centers in support of wing transportation, supply, and logistics planning functions for combat-ready aircraft. Controlled nine Mobility Readiness Spares Packages (MRSP) servicing four airframes worth \$139M. Provided Peacetime Operating Stock valued at \$169M to 355 Wing, six tenant units across five Air Force commands and HQ 12 Air Force.

Planned and coordinated workloads, assigned and adjusted priorities, provided technical advice and policy direction and performed supervisory personnel administration duties. Facilitated extensive in-house and remote training, completed evaluations, and performed one-on-one counseling to improve performance through focused assessment of problem areas and positive re-enforcement of abilities. Ensured all personnel were properly trained and possess the proper USAF endorsements and certifications.

Provided analytical, qualitative, quantitative, comparative and associative analyses in order to best devise and implement technical guidelines, process, and procedures that expedited local, national and global mission objectives. Performed unscheduled utilization checks of accountable or real property to ensure USAF utilization standards were maintained.

Developed appropriate internal operating procedures based on constantly changing workload and make recommendations for improvements in the program areas of logistics, costs, supply chain methodologies and inventory control. Interpreted and applied OSHA and military safety rules and regulations.

Directed due-in from maintenance (DIFM) program for wing. Oversaw mission-capable (MICAP) issues, backorders and receipts. Managed personnel placements, facility maintenance and improvement, operations and budget. Directed and coordinated flight's training, security, safety and self-inspection programs.

SELECTED ACCOMPLISHMENTS:

Reconfigured \$93M EC-130 Compass Call assets to support concurrent deployments to Uzbekistan and Kuwait. Issued 3,000 Two-Level (2LM) Maintenance aircraft parts, allowing wing to fly 12K sorties/24K hours.

Mandated complete inventory on five warehouses for first time in 5 years, resulted in preventing \$500K in adjustments, regaining full control of assets, and improving inventory rate to 99%.

Led Hazardous Pharmacy and served as official liaison during 2004 environmental compliance inspection. Achieved "Best in Air Combat Command" for wing for flawless inspection.

Maximized utilization of \$1.5M in assets by ensuring strict compliance of supply's Precious Metal Recovery Program; Choreographed \$80M reparable program, cut delinquents 30%; local asset repair saved \$400K carcass fees.

Managed efficient and accurate processing of \$98M aircraft parts receipts to directly support 13.5K training sorties and 30.5K win flying hours.

United States Air Force

07/2003 – 06/2004

Supervisor: Col Robert E. Lee, 342-578-9832

40 hours/week

Ramstein Air Base, Germany

Salary: \$ 61,000/year

Aerial Delivery Flight Commander

Provided 435th Air Base Wing logistics support to 86th Airlift Wing and 721 Air Mobility Operations Group airlift missions, HQ United States Air Forces Europe, HQ AIRNORTH, and 125 associate units. Directed the processing of cargo, personal property and passengers through the world's largest DoD airlift hub overseas for USAFE's only Aerial Delivery Flight. Oversaw storage and distribution of critical weapon systems, personal protection assets, and 60 million gallons of aviation fuel.

Supervised, trained, and evaluated 17 military personnel. Managed unilateral airdrop training equipment for C-130 aircrew airdrops and ensured compliance with combat off-load training requirements. Managed four facilities, 16 general/special purpose vehicles valued over \$2M and supplies and equipment worth in excess of \$580K. Represented the wing on all facets of airdrop operations for Joint Airborne/Air Transportability Training and contingency missions. Integral management team member in execution of wing's Primary Nuclear Airlift Force (PNAF) program.

Planned, directed, and managed training conducted by subordinates for wartime combat support missions and mobile weapons systems operations. Developed and maintained administrative records annotating training data such as weapons marksmanship and physical training. Coordinated timely submission of planning and reporting documentation required for training programs.

Ensured that daily and long-term training material needs were accommodated quickly and correctly. Assessed integrated procurement, storage, military facility management, shipment, technical support and training activities into a comprehensive logistics plan. Utilized automated inventory and acquisition systems to analyze supply tasks, requisition equipment and maintain inventory control.

SELECTED ACCOMPLISHMENTS:

Provided comprehensive logistics management for 37th Airlift Squadron 90 heavy platforms, 85 Container Delivery Systems, 390 Standard Airlift Training Bundles, and 30 PNAF Special Assignment Airlift Missions.

Loaded two C-130s within hours, delivering 19 tons of supplies in response to urgent Chadian humanitarian request.

Saved USAF over \$75K by searching and securing free issue of vital supplies through the Defense Reutilization and Marketing Office. Saved USAF over \$3K Euro by recycling and reusing Air Mobility Command Fleet Services trash into container delivery systems.

Identified, forecast, and justified \$499K airdrop budget requirement, establishing first-ever baseline requirements for flight operations. Assessed mission operations and facilitated cost-effective solutions for mission-critical wartime operations.

Directed assignments and upgrade of newly assigned Airmen and Non-Commissioned Officers. Performed quantitative and qualitative analysis, identified training deficiencies, and presented findings to higher HQ staff.

Managed transfer of flight from 37th Airlift Squadron to 435th Logistics Readiness Squadron, ensuring the seamless realignment of four facilities, 17 personnel and \$580K in equipment.

United States Air Force

09/2002 – 07/2003

Supervisor: Maj David Swinger, 456-876-3487

40 hours/week

Ramstein Air Base, Germany/AI Dhafra Air Base, UAE

Salary: \$ 48,300/year

Officer in Charge, Cargo Movement Element

Supervised, trained, and evaluated 45 military and 32 civilian personnel in largest Cargo Movement Element in USAF as part of, 86th Logistics Readiness Squadron. Managed, administered and forecast \$225K annual operating budget. Directed and executed movement of 60 tons of military cargo with an operating cost of \$25M to directly support the wing's flying mission. Managed full logistics management of critical war readiness materiel worth \$403M to support USAF Europe-directed missions.

Planned and coordinated workloads, assigned and adjusted priorities, provided technical advice and policy direction. Performed supervisory personnel administration duties. Created positive, proactive working environment, facilitating teamwork through unified goal of perpetual readiness and successful mission accomplishment.

Established metric and analysis systems for units managed to assess efficiency, effectiveness, and compliance with military and civilian regulatory procedures. Evaluated requirements for additional resources, and balanced organization needs with overall mission requirements and resource interests.

SELECTED ACCOMPLISHMENTS:

Planned, executed and maintained 3-hour mission capable part processing time, greatly improving on 24-hour DoD standard. Delivered 57 high-priority shipments for Operation Iraqi Freedom without delay.

Provided real time visibility for high priority shipments throughout entire supply chain lifecycle. Detected commercial tracking system flaws, devised workarounds, and maintained 100% visibility on 700 shipments.

Mandated and coordinated daily warehouse inspection, identified misdirected freight and reduced cargo hold time by 30%. Improved material procurement process, increased capability by 75% on critical taskings

Directed 58-member team to prep and ship 192 multi-modal shipping containers of critical ammunition valued at \$189M, completing two week job in four days

DEPLOYMENT:

Squadron Operations Officer, 380th Expeditionary Logistics Readiness Squadron, Al Dhafra AB, UAE, 12/2002-12/2003. Managed Daily operations of 150-person squadron in seven different logistics functions including Air Terminal Operations Center, Fuels Management, Logistics Plans, Traffic Management and Vehicle Management. Administered supply programs and account worth over \$122M and ensured safe serviceability of \$14M 168-vehicle fleet. Ensured cargo and passenger movement was expeditiously processes while entering, exiting and moving within the area of responsibility in support of Operations Iraqi and Enduring Freedom.

Served as project manager in design, procurement, installation and execution of \$1.2M fuel farm expansion project, increasing fuel storage capacity increased from 500K gallons to nearly 5M gallons in two months.

Established Al Dhafra's first Base Support Planning Committee, consolidating all plans and Operating Instructions into one use-friendly document--clear vision for future rotations.

United States Air Force

09/2001 – 09/2002

Supervisor: Maj David Martin, 545-621-3785

40 hours/week

Ramstein Air Base, Germany

Salary: \$ 39,300/year

Officer In Charge, Base Deployments and Reception

Managed mobility operations for 86th Transportation Squadron agency tasked with planning and execution of deployments, receptions, support agreements, war readiness materiel and plans for USAF Europe's largest logistics plans and programs office. Processed cargo, personal property and passengers through the military transportation system. Received, stored and issued critical weapon system support and personal protection assets. Managed and maintained active fleet of over 2.4K vehicles and 60 million gallons of aviation fuel.

As Installation Deployment Officer (IDO), coordinated the reception, staging, onward movement and integration of all forces and unit type codes (UTCs) through the EUCOM airlift hub for Central Europe, including 86 Airlift Wing units, 16 tenant units and transiting DoD and Joint Forces. Supervised 130-person Ramstein deployment process during mobility operations and Ramstein exercises at \$3.2M Joint Mobility Processing Center.

Applied broad knowledge of supply logistics, military protocol and information technology to ensure seamless integration of automated systems with existing processes and procedures. Monitored progress toward meeting logistics plan and to identified causes and impact of delays or other issues. Identified and resolved issues in the logistical life cycle that impacted fielding, sustainability and readiness.

SELECTED ACCOMPLISHMENTS:

As part of largest commitment in USAFE, managed 542 Air Expeditionary Forces (AEF) Unit Type Codes (UTCs), tracking needed forces to support war on terror. Moved first USAFE C-17/C-5 flights supporting Operation Enduring Freedom consisting of 3,000 troops and 2.5K short-tons of cargo delivered on time.

Broke a 2-year impasse with US Army on vehicle transportation agreement, USAFE's largest support agreements program, resulting in annual reimbursements to 86 Airlift Wing in excess of \$11.4M.

Evaluated and re-wrote Installation Deployment Plan and 5-year old Kaiserslautern Military Community Aid and Response Plan.

Key logistics officer team member in coordinating all Ramstein AB support for US President's National Airborne Operations Center. Coordinated with Air Mobility Command Tanker Airlift Control Center to authorize needed diplomatic country clearances and allow for flights over foreign airspace.

Planned and executed critical aspects of five large-scale Exercises, 120 missions, 5,485 passengers, and 2,661 short tons of key cargo.

Ranked #1 of 4 Lieutenants by Section Chief; Ranked #1 of 7 2d Lieutenants by Squadron Commander.

United States Air Force

09/2000 – 09/2001

Supervisor: Capt James T. Kirk, 456-654-3854

40 hours/week

Ramstein Air Base, Germany

Salary: \$ 35,800/year

Wing Plans Officer

Directed all facets of 12 support agreements including supplier, receiver and new requirements to support operations and maintenance of 86th Airlift Wing comprised of three flying squadrons and 42 aircraft. Coordinated and maintained base plans, Exercise Support Plans (ESP) and Logistics Annexes fulfilling airlift, air evacuation and treaty compliance requirements, nuclear airlift missions and munitions and War Readiness Materiel storage throughout Europe, the Middle East and Africa.

Supervised, trained and evaluated two Non-commissioned officers and 1 Civilian employee (GS-11). Oversaw agreement development process for wing agencies involving coordination of effort for 58 functional area coordinators. Directed plans development process for wing agencies and served as co-chairperson for wing Planning Committee.

Planned for and managed systems, subsystems, and equipment throughout their life cycle, including integrated logistics support activities. Adjusted plans and schedules for all related actions as required by delays or changes to logistics requirements.

Analyzed pending and long-term tasks and orders, prioritize critical issues and plan workflow, costs and resources according to priority level to ensure expeditious completion of all duties. Coordinated asset management planning activities incorporating varying logistical and personnel requirements to ensure consistency with supply chain strategies.

SELECTED ACCOMPLISHMENTS:

Successfully managed 26 Area Support Group (US Army) agreements valued at over \$18M. Coordinated, evaluated and adjudicated 11 complex agreements overdue triennial review resulting in two money-saving terminations.

Under extremely stringent time constraints, developed, coordinated, and executed 86th Airlift Wing Runway Closure Plan which involved relocating offices and over 530 personnel in under two months.

Coordinated final UNION FLASH 2001 Exercise Support Plan, providing expert guidance, leadership, and support for sudden cargo movement prior to exercise resulting in zero delays reported.
